## INFORMATION ON HOW TO EFFECT DRAWING CHANGES

### I. Correction of Drawings - 37 CFR 1.85

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL 37), the new drawing **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawing should be filed as a separate paper with transmittal letter addressed to the Official Draftsperson.

#### A. Corrections other than Informalities Noted by Draftsperson on form PTO 948.

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed change.

#### B. Timing of Corrections

Applicant is required to submit the drawings corrected within the time period set in the attached Official communication. See 37 CFR 1.85(a).

Failure to take corrective action within the specified time will result in **ABANDONMENT** of the application.
